LARGE CROWDS AT GAMES YESTERDAY

WHITE STARS LOST TO FILLMORE 4 TO 2

DID SOME FINE FIELDING

Several Return Games to be Played in the County Next Sunday Afternoon

Baseball Results Yesterday

Elmo, 2—Burlington Junction, 1.
Wilcox, 4—Clearmont, 1.
Hopkins, 2—Ravenwood, 0.
Oregon, 6—Bigelow, 1.
Fillmore, 4—Maryville, 2.
Mound City, 8—Graham, 6.

Elmo again triumphed over Burlington Junction a second time when she won a game at Elmo yesterday by a score of 2 and 1. In the first game the score was 6 to 5. It was a fast game and until the last of the ninth the Junction team had shut out its opponents.

With two down in the last of the ninth two hits and two errors allowed Elmo to cop the game.

The feature of the game was the catching of a line drive through second by Shortstop Tobin of the Junction. He fielded the ball on the run and threw to first where Tilson made a pretty one handed catch. Pitcher Monk of the Junction allowed four hits while Lamar, the Elmo moundsman, allowed five.

The Burlington Junction run was made in exactly the same manner as the winning run in last Sundays game with Clearmont. Tobin doubled, and was advanced to third by a sacrifice by Graves and then scored on a sacrifice by Harrington.

The batteries were: Burlington Junction—Monk and Hagey; Elmo—Lamar and Huffstetter.

A large crowd witnessed the game. Burlington Junction will play Maryville at Burlington Junction next Sunday.

The local White Stars were defeated yesterday at Fillmore by a score of 4 to 2. It was a good game and there were few errors. The Maryville battery was Still, Conley and Mayes. A good crowd witnessed the game. The Maryville team made the trip to Fillmore in cars and returned last night. Next Sunday the locals will play with Burlington Junction at Burlington Junction.

In the Wilcox-Clearmont game the former won by a score of 4 to 1. The score would have stood with a goose-egg on the Clearmont side had it not been for Brownfield who knocked a home run in the first of the ninth. It was a pretty clout and was easily good for a circuit of the bases. The feature of the game, however, was the fielding of Puri Shell, the Wilcox right fielder. He stopped two line drives on his knee and played tip top ball.

Another example of great fielding occured in the seventh when Egley, playing with Wilcox, knocked a long high fly to deep center. Smith of Clearmont ran back under the ball and with a high leap into the air he "speared the pill" and threw Egley out at home. This throw robbed Egley of a homer but it was a nice stop by Smith.

Jones of Wilcox also hit a long three bagger but he was thrown out when he tried to stretch it into a homer.

The batteries were: Wilcox—Phipps and Tobin; Clearmont—Nucholls and Carmichael. The umpires were Booth of Wilcox and Watson of Clearmont.

Wilcox will entertain Hopkins at Wilcox next Sunday for as many innings as is necessary. The largest crowd of the season witnessed the game yesterday.

Hopkins won from Ravenwood at Hopkins yesterday by a score of 2 to 0. It was a good game and the feature was throw from center to the plate by Rickard of Hopkins. This throw kept Ravenwood from scoring. The batteries were Hopkins—Dixon and Turner; Ravenwood—Ross and Bishop.

The next Hopkins game will be with Wilcox at Wilcox next Sunday. A good crowd witnessed yesterday's game.

Mound City won from Graham yesterday at Mound City by a score of 8 to 6. A large crowd witnessed the game. A return game will be played at Graham next Sunday.

Oregon swamped Bigelow at Big Lake yesterday by a score of 6 to 1. There was a good crowd.

MISS ARNETT WILL SAIL FOR EUROPE WEDNESDAY

Former Teacher of College to Spend Three Months in Europe—To Teach at Salem, Mass.

Miss Mabel Arnett, formerly of the State Teachers College faculty, leaving Maryville last September, will sail Wednesday noon for a three months' trip in Europe. She will visit England, Scotland, Ireland, Germany, France, Belgium and Italy. She will return to this country in September and will have charge of the English department of the State Normal School at Salem, Mass., the coming year.

Miss Arnett has been attending Columbia University at New York the past year and received her master's degree there last week.

LEARNING STOMACH-TO-HEART METHOD

S. T. C. GIRLS MAY USE THIS ROUTE TO FIND MATE

BUTTERFLY TYPE WRONG

Miss Hettie Anthony Says Training Will Make Good Home Keepers

Girls at the State Teachers College have ample opportunity to learn the stomach-to-heart method for the securing of their life mates. The department of home economics is running at full speed and in high gear.

Ten courses are offered by the Department and more than 100 girls are enrolled. There are four teachers in the Department and all of the equipment and paraphenalia necessary for the courses is on hand.

Three courses are offered in the foods department. They are Preparation of Foods, Selection and Marketing of Foods and Nutrition. These classes are taught by Miss Mary Rogers, a graduate of the University of Missouri, and by Miss Katherine Carpenter.

Four courses are offered in the cloth ing problem. They are taught by Miss Hettie Anthony, head of the department, Miss Rogers and by Miss Anna Bainum. These classes are The Making of Undergarments, The Selection and Making of Simple Garments Teaching Training and the Selecting and Testing of Economic Materials.

Miss Anthony is also giving courses in home nursing and sociology of the family. A course in household management is given by Miss Rogers.

The department is meeing all of the requirements for the vocational work under the Smith-Hughes Act.

Miss Anthony, said today: "We are offering more courses and have more students than ever before. There is a great need for the preparation of girls for better home-makers. Since the men are finding the economic pressure so hard on their pocket books the need to relieve this pressure comes fundamentally from the home and the homemaker. The boys of this generation should be trained to select as their wives, girls who have had home economics rather than the social butterflies.

"Home economics is opening as many opportunities to the modern woman. It is not only preparing her to make a home for herself and to teach but it is opening many positions in industry and vocations, such as dietetians in hospitals, deans of women in colleges, industrial advisors in department stores, food experts and clothing experts in federal positions and large manufacturing concerns, and, within the last two years our larger banks are creating a position for home economics trained women, known as 'The woman advisor in keeping home budgets.'

"Home economics is a time saver a money saver, and a health saver It saves steps, time and energy.

"Lately there have been more calls for home economics teachers than the College has been able to fill. Such positions pay excellent salaries and there are always openings."

"The class in nutrition is making a test of foods and their effects on the body. This class is really a course in preventive medicine.

"So many people are good cooks, but they do not know how to select foods and do not understand their reaction on the body. If people ate properly much illness would be prevented, and a saving in money would be one of the results."

Miss Anthony said that within the last few days she has placed several of her students in advantageous positions.

HAD 4 CHILDREN'S DAY PROGRAMS

ONE YESTERDAY MORNING AND THREE IN THE EVENING.

PRESBYTERIANS' UNIQUE

Children representing Characters Came Out of Huge Book—Many at Christian Church.

Yesterday was a day of children's programs in Maryville. The day opened with one in the morning at the First Baptist Church. Three came in the evening, one at the Presbyterian church, one at the First Methodist Episcopal church and one at the Christian church.

Perhaps the most unique of the programs was the one at the Presbyterian church. The name was "Out of the Bible." The scheme was carried out in having the different characters, who were folks of the Bible, come out of a huge representation of the Holy Book. The characters came out one by one, and made speeches appropriate to the Bible stories regarding them. It ended up in a tableau in which Joseph and Mary, represented by Byron Murry and Miriam Gray, were looking into the cradle at the little Christ child. Ruth Jensen and Mary Jane Bellows as Religious Education and Imagination had the leading parts. Edward Dietz as Joseph made a special hit with the audience with his clear distinct speaking and Helen Davis as Miriam, sang a solo behind the curtain which was especially pleasing. The characters of the Bible were supported by a chorus of children. In all about seventy children took part.

A large crowd attended the program at the Christian church. The pageant and the part of the little folks were especially good and are said to deserve special comment. A large number of children were in the program, which was in charge of Mrs. Vada Halley, Mrs. J. D. Richey, Mrs. Homer Black and Mrs. Ellis Cook.

"The Road to the Golden Age" was given at the First Methodist church. A large number of children took part in the exercises.

W. S. DUNLAP DIED HERE SUNDAY AFTER OPERATION

Resident of Guilford Community for About 60 Years Lived Only Few Hours After Operation

W. S. Dunlap, a resident of the Guilford community for about sixty years, died at the St. Francis hospital in this city at 2:30 o'clock Sunday morning after having an operation performed at 6 o'clock Saturday evening. Mr. Dunlap had been in ill health for about three years.

Funeral services will be held at the South Methodist Church in Guilford at 2:30 o'clock Tuesday afternoon, conducted by the Rev. Swearingen. Burial will be at the Graves cemetery.

Mr. Dunlap came to Maryville about three weeks ago to visit Mr. and Mrs. James W. Blagg. He took sick last week and an operation was necessary, resulting in his death.

Mr. Dunlap was 83 years old and was born in Clinton County, Mo., on December 23, 1838. He came to this country at an early age and resided in the Guilford community about sixty years. Mrs. Dunlap's death occurred about fourteen years ago. Surviving are four children: W. L. Dunlap of Hollister, Calif.; Mrs. C. A. Ginn of Peoria, Ill.; Mrs. Hardin Walker and Mrs. F. H. Byergo of St. Joseph. Two sisters survive: Mrs Carrie Wardrup of Gibson, Ia.; and Mrs. Jennie Pully of Clarksdale, Mo.

999 ENROLLED AT THE STATE TEACHERS COLLEGE

And the Other One Is Said to be on His Way Here to Begin Work.

At 3 o'clock this afternoon the enrollment at the State Teachers College had reached 999. Only one more needed to enter the the college for it to be able to count its record enrollment of four figures. And that one is said to be on the road. The enrollment as it now stands is 296 above the high mark before this year, which was 703, reached in 1916.

THINKS CONVENTION WILL NOT ADJOURN NOW

Editor Hull Who Is Home From Jefferson City Says Many Delegates Favor Finishing Work Soon.

Editor Fred Hull returned to Maryville Sunday morning from Jefferson City, where he is a delegate from this senatorial district to the constitutional convention. Mr. Hull will spend this week here, having been given a leave of absence from the convention.

Mr. Hull thinks the convention will not adjourn this summer. A few members are wanting the convention to adjourn on July 1 until September 1. Others are wanting the convention to take an adjournment of several months. Mr. Hull states a majority of the delegates are anxious to remain in session until the proposed constitution is written. He thinks this can be done by the middle of August.

The proposed constitution when ready will be submitted to the people of the state at a special election.

CLEMENT NIEMANN DIED THIS AFTERNOON AT 3:50

Father of Father Niemann of St. Patrick's Was One of the Oldest Citizens.

Clement Niemann, father of the Rev. Father Henry F. Niemann of St. Patrick's Church, died this afternoon about 3:30 o'clock at the home of Father Niemann after an illness of four weeks. The cause of his death was old age, Mr. Niemann being 95 years old.

Mr. Niemann was born in the province of Oldenburg, Germany, came to this country when a young man and located at Quincy, Ill. Mrs. Niemann died forty-two years ago. He located in St. Joseph in 1866 and was manager and superintendent of the Hax Furniture company of that city for a number of years.

Mr. Niemann came to Maryville twenty-six years ago with his son, Father Niemann.

No arrangements for the funeral services have been made.

Mr. and Mrs. Charles McEntyre of Hopkins are spending the day at the home of Mr. and Mrs. Ed Otis today.

LONG WILL MAKE TOUR OF COUNTY

CANDIDATE FOR SENATOR TO BE HERE ON JUNE 20.

SPEAK AT COURT HOUSE

Delegations From Every Part of the County Will Be in Attendance at Meeting.

Breckinridge Long, candidate for the Democratic nomination for United States Senator, will speak in Maryville on Tuesday evening, June 20, at 8 o'clock. According to a letter received from the Long campaign headquarters, Mr. Long will arrive in Maryville from St. Joseph on the noon Burlington train on June 20. After lunch here, Mr. Long with several from Maryville will make a tour to the northwest and western part of the county. The party will make visits at Wilcox, Clearmont, Elmo, Burlington Junction, Quitman and Skidmore. Returning to Maryville, a dinner will be given here in his honor.

On the following day, Mr. Long will visit at Barnard, Guilford and Conception. He will leave Conception Junction on the Wabash for Albany, where he will speak in the afternoon of that day.

Efforts are being made to have a big meeting here for Mr. Long. Delegations from every town in the county as well as many in adjoining counties are expected to attend the meeting.

Mr. Long visited Nodaway county in his campaign for senator in 1920. He carried this county at the primary election that year. His supporters think he will carry the county this time by a very substantial majority.

MISS NELLE RUTLEDGE TO EDUCATION DEPARTMENT

Began Work as Instructor at the State Teachers College this Morning

Miss Nelle Rutledge of Mt. Vernon, Mo., arrived in Maryville today on the noon train and took up her duties as an instructor in the education department of the State Teachers College this afternoon.

Miss Rutledge is a graduate of the University of Missouri, being graduated from that institution with the degrees of Bachelor of Science and Master of Arts. For the past year she has been a teacher in the high school at Joplin, where she taught teacher training.

Miss Rutledge has been employed for the summer term only. The largeness of the Department of Education made it necessary to have another instructor for this summer.

SIX CORPORALS FOR DE MOLAY DRILL PATROL

To Assist Master—Meeting Tonight—Hike About Town Friday Evening.

Six corporals have been appointed for the DeMolay drill patrol. Each of these men will have charge of a squad of four men and they will assist the drill master, Harry D. Snyder, in the drills. The men who were appointed to these places are Harold O'Banion, Martin Penisten, Morris Chick, Jack Jones, Ray Hull and Wilson McMurry.

A meeting of the patrol and regular drill will be held tonight. Plans for the contest of drill patrols of the Order of DeMolay at the State Conclave in St. Louis will also be discussed.

There will be a uniform drill of the patrol Friday night. This drill will be in the form of a hike and the patrol will march over many of the streets of Maryville.

MANY KILLED IN NEW YORK STORM

ROSE WITHOUT WARNING AT 5:30 O'CLOCK THIS AFTERNOON.

CAUGHT AT THE RESORT

Damage Runs Into the Millions—Loss of Life and Property at Other Places.

New York, June 12—Forty-five persons are reported to be dead as a result of a storm here yesterday. A violent storm, accompanied by shifting winds that reached a velocity of eighty-eight miles an hour, took many lives, injured more than a hundred and caused fortunes in property losses in the metropolitan section.

Boston, June 12—One was killed, and several injured, and property damaged almost a million dollars due to the storm yesterday.

Washington, June 12—The yacht Mayflower, with President and Mrs. Harding, aboard docked early after a weathering gale in Chesapeake Bay last night.

New York, June 12—The city is taking toll of the worst storm recorded. The known dead, included those drowning, those killed in the collapse of a Ferris wheel and those killed by other storm accidents. A gale rose without warning at 5:30 o'clock yesterday afternoon. The day was very hot and beaches, parks and resorts were crowded with hundreds of people, many of whom were canoeing. The property damage is estimated in the millions.

Newark, Ohio, June 12—Three are dead, thirteen seriously injured and many more believed to be dead as the result of a tornado late yesterday.

EMPLOYERS INVITED TO DISCUSS CONTROVERSIES

Executive Council's Report Attacks Supreme Court's Decision and Labor Board's Wage Cut

Cincinnati, Ohio, June 12—Organized labor employees today sent an invitation to employers to meet and determine an agreement covering all controversies on both sides. An invitation came from Gompers. "We ask employers to meet not in any jug-handled movement which they dominate but in an honest way to ascertain and determine for some reasonable period an agreement covering controversial matters that affect both sides of industry," he said, and warned that as long as employers prosecute open shop insistance, there is no genuine confidence possible between employers and employees.

"Open shop, even when chocked with hypocritical American plan is an advance to commit devilish acts and there can be no genuine conference while it persists." The executive council's report attacked the Supreme Court's decision urging an appeal to a higher court of public opinion. The railroad labor board's wage cut was attacked as unjust and declared unemployment would be eliminated soon. It denounced Congress as inefficient, unconstructive and favoring moneyed class.

Cincinnati, June 12—Facing the most difficult problems in its existance the American federation of labor opened its convention here today. Leaders were determined to combat further inroads on organization labor.

THE AMERICAN FLAG.

Much has been said during recent years about paying due honors to the American flag. Formerly this idea was confined largely to military men and war veterans. But nowadays the man who does not rise when the "Star Sapgled Banner" is played is likely to be forcibly reminded of his negligence and perhaps assisted to stand. The man who fails to take off his hat as the flag passes by, may get the same knocked of by some exuberant young patriot.

Flag day, also, observed June 14, is an anniversary noted in many schools, and this occasion has furnished a chance for teachers to talk to children about what the national colors stand for.

Any loyal American ought to find our stars and stripes a sign having deep meanings. Symbols have always had a tremendous power over human hearts. The martyrs looked to the cross of Christ and from the courage and faith derived from that sight have had the strength to brave torture and death.

The flag of one's country stirs emotions not wholly unrelated to that sacred emblem. Its red suggests the blood of patriotic martyrs, who like the Christian saints gave their lives for a noble ideal. Its white suggests the purity and honor that were the ideals entertained by the fathers who founded this country. Its blue suggests the favor of heaven, which has guided and preserved this fair land.

Thoughts like these then should come into the mind when the flag of the country passes by. Our people do not use it to decorate their home as they should. When July Fourth comes it should be unfurled and thrown to the breeze from every home. If your copy of Old Glory is dull and tarnished, get a new one, and clothe your sentiment in a clean and shining form.

Buying a pocket book on credit is another sign of a real optimist.

The surplus of ex-wives and former husbands seems to be growing.

About the only constructive work a good many congressmen ever do is the regular biennial construction of their political fences.

It would suit some fellows better if a law could be passed to prevent a locomotive from claiming the right of way at a crossing when an automobile is coming.

Miss Mathilda McCormick has been notified that she can not be received into the higher society of Sweden if she marries Max Oser who is a perfectly respectable gentleman, but is not eligible, because of his business, to higher social circles. Miss McCormick should have him moved over to the United States any way if she wants him. The granddaughter of John D. Rockefeller can get into all the society she wants in this country, and besides who wants to live in Sweden?

"Civilization is based on emotion, not brain," says an exchange. There is too much truth in this assertion that might seem, at first glance, to be a wild statement. A couple of silk garments displayed in the Valentino trial at Los Angeles a day or two ago excited more interest than the tariff, bonus question and states rights all combined. There is too much attention to the frivolous and spectacular and too little to the questions of serious moment. Everybody remembers the details of the sensational murder trials and the big divorce cases and the Fatty Arbuckle fiasco but Senator Jim Reed and Breckenridge Long can talk themselves hoarse about the league of nations and the price fixing laws of two years ago and not one in fifty can tell whether either one is stating the facts correctly. We are living in a fast age when men crowd their brains with stuff, very little of which is digested and most of which is without mental nourishment or stimulus.

Forumettes

If you are the kind of
A fellow who is always
Down in the mouth you
Will never get up in the world.

Not only are horses scarce on Maryville streets these days but horse sense as well.

The man who has a jealous wife should hire an ugly stenographer.

You will often find that the slowest men can be the fastest friends.

A lot of people's idea of getting the best out of life is getting the best of the other fellow.

There is one consolation these days of June weddings and commencements. It is a long way until Christmas when we have to buy presents again.

Isn't it amusing to see how serious some people take themselves?

By the way, we have not seen a joke about the galoshes for three months.

Perhaps the reason a little kindness has to go so far is because the supply in this old world is limited.

Uncle Abner, the town philosopher, says defeat is only fatal to the man who thinks it is so.

Laying all joshing aside, we venture to say that there are not so many mortgages on homes as there are on automobiles.

The dress problem and the flapper problem exists chiefly in the minds of those who want to reform their fellow men and women.

The maid has it all over the average husband. The wife lets her have her nights out.

At last reports Maryville gossips still have the lead over the automobile drivers in running down people.

Louise, the stenographer, says the man who kisses a girl but once evidently believes that the first impressions are lasting.

One of our lawyer friends discharged his stenographer the other day. He said she could not spell and was always asking him how to spell certain words. "I wouldn't have minded it so much if I could have spelled them myself," he said.

Vagrant Musings

We learn how to make other kind of mistakes from experience.

We should always have good reasons for breaking silence.

Some people may be absent minded but they never forget a date to dinner.

There is room at the poor house for the fellow who is waiting for success to overtake him.

Our idea of an optimist is the man who is keeping up his dues in the brewery workers' union.

The Road to Yesterday

Who of us can't remember the days when a man on horseback rode down the street ahead of the circus parade calling to the people to watch their horses as the elephants were coming. Also when the parades were a mile long and the top balloon man was in evidence all along the line of march through the business streets.

CHAIRMAN HULL SAYS TO KEEP HANDS OFF

Washington, June 12.—In view of publications in the Missouri press and reports received here concerning the attitude of the Democratic National Committee toward the Democratic primary contest in Missouri, Cordell Hull, chairman of Democratic National Committee today issued the following statement to the newspaper press of Missouri:

"Some months ago plans for organization, educational and club work in conjunction or acquiescense with state organizations, and applicable alike to all states were, after full conference, prepared by Democratic National headquarters. This work has thus far been prosecuted in its various lines as in the past in a number of states, without any friction but in harmony with state party officials and candidates for nomination. Mrs. Emily Newell Blair and associates have had charge of the women's work.

"Since assuming charge here it has been the fixed policy of Democratic National headquarters that no official connected therewith and no agent thereof should by word or act interfere, directly or indirectly, with any contest for a Democratic party nomination anywhere. I have been and am most rigidly adhering to this policy. I feel no disposition to do otherwise, because the function and duty of the Democratic National headquarters, is to aid in the election of party nominees, and to in no wise take part in contests for nomination.

"Fortunately, no complaint of any breach of these sound rules and policies by any one acting as an agent for Democratic National headquarters has come to me, except from Missouri, during the past few days, and this complaint is based more on breaches that are thought to be threatened than on any actually committed.

"In view of the spirited primary contests in Missouri, I am particularly anxious that the fullest precaution be taken by every Democrat participating in any phase of national party organization work in that state to avoid even the appearance of the slightest interference in any primary election contest, and on the contrary to confine their every utterance and action to preparation for the November election alone. In my efforts to carry out this policy I have even repeatedly emphasized this rule and sent directions accordingly to every person who should receive them in Missouri from Democratic National headquarters.

GOLF NOTES

The drive for 100 new members for the Country Club started today. If the club is successful in getting that many new members, arrangements will then be made for the purchase of the grounds. Several men were busy today soliciting new members. No report was made as to how successful they were.

A great deal of interest is being taken in the flag day tournament to be held Wednesday, flag day. The tournament is to decide where you will be after taking your thirty-fifth stroke. At that point you are to put your flag with your name attacked to it. A flag pole is to be put up on the grounds so as the flag can be put up Wednesday. J. L. Kraft has charge of the arrangements for putting up the flag pole. F. C. Miller is in charge of the flag day tournament.

F. C. Miller made another 35 yesterday. This is the lowest score yet made at the country club. His other scores yesterday were 37, 38 and 42. S. G. Gillam made the course in a 37. He is fast developing into one of the best players of the club. George L. Wilfley is playing a good game. There are several others, being Bud Hamilton, Clarence Vogt, Dr. Jesse Miller, Jr., Ed Keck, Paul Sisson and Harvey Haines who are playing good golf.

Frank Reuillard, one of the captains for the membership drive, says he has thirty-five new members. Several believe Mr. Reuillard is not very accurate in counting since taking up golf.

Ike Thomas Pryor of Fort Stockton, Tex., visited the country club with his brother-in-law, George Robb Ellison. Mr. Pryor was very high in his praises of the grounds. He said it was a beauty spot. Many other visitors have also commented that the grounds are as pretty as any course they have seen.

Several are playing golf to gain weight while others are playing to reduce. Included in these classes are George B. Baker, Will J. Montgomery and Clarence Vogt. There may be others.

Several during the past week have joined the ranks of that species of the golf race known as "bugs." They have been "bitten" and infected with the golf germ for which there is no cure.

Replace the 'turf.—Mr. Golfer, do you always replace the turf, the beautiful turf that the forefathers have had such a hard time producing.

Harry Wilson of Burlington Junction was a visitor at the club yesterday. Mr. Wilson became very enthusiastic about the game.

ELECTRIC THEATRE

TONIGHT—Carmel Myers and Walace McDonald in **"BREAKING THROUGH**, Episodes 4 and 5. Also Jimmy Aubrey in a two reel comedy of laughter, **"THE BACKYARD."** Don't miss it, you'll like it. Night 7:30 and 9:00—10c and 22c.

Tuesday and Wednesday, June 13 and 14—Double feature program, Mary Miles Minter in **"THE HEART SPECIALIST."** Romance—in a Turkish harem—"behind the scenes" in a roaring New York newspaper office—out in the green open country. Comedy and thrill at the adventures of a love expert in quest of love! Funnier than the funniest joke is the tale of woe pictured by Buster Keaton in that riot of hilarious mishaps where the sad-faced comedian's attempts to end his many troubles always bring new ones and make **"HARD LUCK"** too good to miss.

If you remember, about two weeks ago we ran Buster Keaton in a two reel comedy that was extra good, well this one is as good if not better with new stunts. Matinee each day at 3:00—10c and 22c. Night 7:30 and 9:00—10c and 33c.

WHEAT CROP IS 83 PER CENT NORMAL

STATE PROSPECTS NOW INDICATE 43,733,000 BUSHELS.

CORN AVERAGE INCREASES

Red Clover Prospects are Best and Oats Poorest in Several Years—Fruit Promising.

Jefferson City, June 12. — Missouri wheat prospects now indicate 43,733,000 bushels, according to the June returns received by E. A. Logan and Jewell Mayes of the Federal-State Crop Reporting Service, with oats yielding 29,363,000 bushels, hay 4,261,000 tons, and prospects pointing to increase of 365,000 acres over the 6,096,000 acres of corn last year.

Nodaway County farmers report the local condition of wheat at 88 per cent of normal, and corn at 85 per cent. The acreage of oats in this County was 33,740 in 1921 and they report only 29, 610 acres seeded this year, with conditions of 86 per cent. Nodaway County reports show apples to be 81 per cent, hays 72 per cent, pasture 82 per cent, and peaches 97 per cent.

Missouri wheat now 83 per cent indicates an average yield of 14.85 bushels per acre, totaling 43,733,000 bushels, compared to 82% last year, the ten-year average being 77 per cent. The final yield in 1921 was 34,390,000 bushels. Wheat did not develop during May as in a usual year. It was too wet during the preceding months, and the crop on flat lands that became yellow has never recovered. The result is short heads. Well drained bottom lands and hills are quite promising, and generally the best wheat is in the northern third of the state. Lodging has occurred at scattered points, and much rust is reported with chinch bugs in many counties and worst on the east side north of the Missouri River. The crop is beginning to ripen in southern sections where cutting begins by the 15th and harvesting will be general in the next two weeks.

Corn has been planted upon an increased acreage, approximately 365,000 acres over last year, which would bring the total corn acreage up to 6,462,000 acres against 6,096,000 last year. The first official acreage estimate will be made July 1st. Planting was late, due to rains, but generally stands are good. Work has been delayed most in Central Missouri, and planting continues in the wet and overflow areas. Cultivation is quite general of the first plantings throughout the state, with some corn plowed the third time. Many fields are rough and hard to work. Cutworms were bad during the cool spells. Considerable fear is expressed for corn from chinch bugs in Audrain, Callaway, Jefferson, Johnson, Knox, Lewis, Pettis, Ralls, St. Louis, Shelby and Warren, where this is the third consecutive year of this insect menace.

Missouri oat acreage for 1922 is only 60 per cent of last year, or 1,289,000 against 2,148,000, and with condition at 67 per cent, indicating 22.78 bushels per acre or 29,363,000 bushels compared to 42,960,000 last year. Acreage of oats is the smallest and the prospect is the poorest for several years, as condition in 1921 was 77 per cent and 84 per cent is the ten-year average. The oats crop was sown under adverse conditions, and with little gain in May is still small and weedy. Present indications are that 40 per cent of the reduction in oats acreage has been planted to corn. While there will be some idle land, the balance of the acreage will be sown largely to millet, soybeans, cowpeas, and sorghum. Sudan grass will be seeded more generally than usual. Soybeans are being tried for the first time by many farmers.

Hay is 89 per cent normal, indicating 1.25 tons per acre or 4,261,000 tons. The condition last year was 73 per cent and the ten-year average 81 per cent. Many meadows are short and weedy. Red clover is the best for several years, and is ready to harvest, but much of the crop in many communities is badly mildewed. The acreage is 208,000 compared to 186,000 last year, with condition of 93 per cent compared to 75 per cent in 1921 and 82 per cent ten-year average. Alfalfa is 91 per cent first cutting being harvested on 178,000 acres compared to 173,000 last year, with good prospects in most sections.

Pastures are excellent in all sections excepting the extreme northern and eastern borders, and throughout the central sections best ever. White clover is fine. A good crop of bluegrass has been produced and much interest developed in stripping seed. Condition is 96 per cent compared to 90 in 1921 with 87 for the ten-year average.

Fruit prospects are very promising. Apples are 80 per cent, with complaints of heavy drop for fall apples. Peaches 92 per cent and developing well. Pears 70 per cent, and poorest fruit prospects. Cherries are plentiful and grapes carry heavy blossoms. Gooseberries have been plentiful, and the strawberry crop large. Tame and wild blackberries and raspberries promise another big crop. Local hailstorms did some damage during May.

Gardens have improved rapidly. Potato stands are irregular, but the commercial and farm plantings are more than last year. Watermelons are good stands in shipping districts. Beans 89 per cent, cabbage 86 per cent, onions 91 per cent. Watermelons and cantalopes 84 per cent.

General farm conditions are more promising than last June. Live stock are healthy, and the upward slant of prices for farm products continues. The spring has been too wet and cool, and crop growth is somewhat backward. The 1922 crops are planted, and the outcome all depends upon the season during the next twelve weeks. The Missouri farmer attitude is growing more confident, and fewer complaints are heard.

MANY TYPICAL NODAWAY CO. SCENES BEING MADE

George A. Pickens is busy making still pictures of typical scenes in Nodaway County which will be enlarged and used as art titles for the Nodaway County agriculture films. Mr. Pickens says that he is surprised at the many beautiful scenes. It is just the time of year when all of the crops are beginning to make a good appearance and the variety which this county offers makes the task of getting pictures for art titles an enjoyable one.

Bail for Trusty at $2,000

Verne Trusty of Burlington Junction was arraigned before United States Commissioner Duncan in St. Joseph Friday, charged with transporting a stolen motor car from Loveland, Colo., to Maryville, Mo. He waived preliminary and in default of $2,000 bond was committed to jail to await action of the September grand jury.

MANY TO CONCEPTION TOMORROW FOR SERVICES

Solemn Blessing and Inthronization of Coadjutor Abbott Philip Will Take Place Then.

A number from Maryville are intending to go to Conception tomorrow to attend the solemn blessing and inthronization of Coadjutor Abbott Philip Ruggie, O. S. B., and to attend the Catholic Day exercises there tomorrow afternoon. The ceremonies at the Conception Abbey will commence at 9 o'clock in the morning.

His Grace, S. G. Mesmer, Archbishop of Milwaukee, officiating, assisted by Right Rev. Athanasius Schmitt, O. S. B., Abbot of St. Meinrad Abbey, St. Meinrad, Ind., and Right Rev. Ignatius Conrad, O. S. B., Abbot of New Subiaco Abbey, Subiaco, Ark., other Abbots and Bishops. The sermon will be preached by Monsignor James P. Brady of St. Joseph.

Right Rev. Philip Ruggie, O. S. B., who is to be Coadjutor Abbot to Right Rev. Frowin Conrad, O. S. B., was born April 10, 1865, at Gossau, Canton St. Gall, Switzerland. His early education was obtained in his native city and at the famous monastic school, Maria Einsiedeln. In the year 1883, when Abbot Frowin opened Conception College, Father Philip was the first student to register. He is therefore the first alumnus of Conception College, which, during the lifetime of its founder, has given to the Church one hundred priests. Before completing his course at Conception, Father Philip pursued his studies for one year at St. Benedict's College, Atchison, Kansas.

Entering the novitiate at the Abbey, he made his simple vows Nov. 13, 1887. He was ordained priest Aug. 15, 1891, by the Right Rev. Otto Zardette, D. D., of St. Cloud, Minn., who was later transferred to Bukarest, Roumania, and raised to the Archiespiscopal dignity. Subsequently he was engaged as teacher at the college, then pastor of St. Benedict's Church at Clyde, and eventually as Procurator of the Abbey. As pastor of Sacred Heart Church at Verona, Mo., he erected a beautiful, typically rural church, one of the monuments of catholicity in Southwest Missouri. During his pastorate of St. Joseph's parish, Pilot Grove, Mo., Father Philip was appointed to St. Michael's Priority, Cottonwood, Idaho, and assumed to the office of Prior Sept. 8, 1915.

At noon dinner will be served at the parish hall. In the afternoon several addresses will be given and among them will be Miss Grace Shepherd of the State Teachers College and T. A. Cummins. Prosecuting Attorney Charles F. McCaffrey will be the chairman of the meeting. William Oakerson of Jefferson City, formerly county superintendent of this county, will be one of the speakers at the picnic.

THE REV. MR. CONDER SPENDING A WEEK'S VACATION HERE.

The Rev. J. E. Conder arrived in Maryville last evening for a week's visit with his family. The Rev. Mr. Conder is field secretary for the National Anti-Saloon League and for the past few weeks has been in Minnesota. He will leave Maryville next Monday for a trip to Montana, Washington and Oregon for the league. He is expected to return to Maryville about July 15 to spend a two months' vacation here.

WALKING TO 23RD ANNUAL ENCAMPMENT AT SEATTLE

Delegates From Yonkers, N. Y., to Go to San Francisco First and Then Up the Coast.

New York, N. Y.—Determined to attend the Twentieth Annual Encampment of the Veterans of Foreign Wars of the United States to be held in Seattle in August, James J. McCormack and Solly Summerfeldt, both members of Crusaders Post No. 353, Veterans of Foreign Wars, of Yonkers, N. Y., started for the encampment city on foot several days ago. They are fully equipped with a regulation shelter tent and a compact camping outfit and will spend most of their nights under canvas.

They have been elected as delegates to the Encampment by their Post. They plan to go to San Francisco first where they will attend the annual gathering of the Disabled American Veterans of the World War, and from there they will "stroll" up the coast to Seattle. They plan to arrive there in time to attend the opening session of the Encampment which will take place in the morning of August 14.

These same men walked from New York to Detroit last year to attend the 22nd Encampment. Summerfeldt was severely wounded in France and bears several shrapnel scars.

"Ye Ol' Swimmin' Hole," 102 River, A Popular Place.

"Ye ol' swimmin' hole." Every section of the country has one and every town little and big claims one as its own. It may be in the nature of what would ordinarily be termed a "duck pond," three feet deep with a mud bottom or it may be a deep pool with clean, clear water and a rock bottom. But whatever kind of a place it is will be popular with the boys and it will even tempt the grown-up folks.

Yesterday was the first real Sunday for swimming this year. Maryville's most popular place seems to be the hole just below the old concrete dam at the pumping station at the One Hundred and Two River. From morning until late in the afternoon the water was litterly filled with boys, some of them almost men, diving from the dam or swimming and playing about in the hole. At one time forty were counted from the state road bridge.

The swimmers were in bathing suits of various colors, those of them who had suits, and those who did not have suits were clad in overalls and shirts, with abbreviated legs and sleeves.

There is no bath house at the river and no shower bath to wash off the sand after the plunge. But the nearby willows serve the purpose of a dressing room and, well, the boys can dangle their feet in the water from the dam and make them clean before they put on their shoes and stockings. Anyway it is a swimmin' hole and affords the young folks hours of pleasure untold.

officiated. The guests were limited to the relatives of the couple. After the ceremony a luncheon was served to the bridal party and the guests. The bride was formerly a State Teachers College student here. Mr. Price had an interest in the Montgomery-Cummins Clothing store here until shortly after the first of the year when he disposed of it, and later buying a clothing store at Brookfield. Mr. and Mrs. Price left immediately after the ceremony for Kansas City and will return in a few days to Brookfield where they will make their home.

LARGE CROWDS AT GAMES YESTERDAY

WHITE STARS LOST TO FILLMORE 4 TO 2

DID SOME FINE FIELDING

Several Return Games to be Played in the County Next Sunday Afternoon

Baseball Results Yesterday

Elmo, 2—Burlington Junction, 1.
Wilcox, 4—Clearmont, 1.
Hopkins, 2—Ravenwood, 0.
Oregon, 6—Bigelow, 1.
Fillmore, 4—Maryville, 2.
Mound City, 8—Graham, 6.

Elmo again triumphed over Burlington Junction a second time when she won a game at Elmo yesterday by a score of 2 and 1. In the first game the score was 6 to 5. It was a fast game and until the last of the ninth the Junction team had shut out its opponents.

With two down in the last of the ninth two hits and two errors allowed Elmo to cop the game.

The feature of the game was the catching of a line drive through second by Shortstop Tobin of the Junction. He fielded the ball on the run and threw to first where Tilson made a pretty one handed catch. Pitcher Monk of the Junction allowed four hits while Lamar, the Elmo moundsman, allowed five.

The Burlington Junction run was made in exactly the same manner as the winning run in last Sundays game with Clearmont. Tobin doubled, and was advanced to third by a sacrifice by Graves and then scored on a sacrifice by Harrington.

The batteries were: Burlington Junction—Monk and Hagey; Elmo—Lamar and Huffstetter.

A large crowd witnessed the game. Burlington Junction will play Maryville at Burlington Junction next Sunday.

The local White Stars were defeated yesterday at Fillmore by a score of 4 to 2. It was a good game and there were few errors. The Maryville battery was Still, Conley and Mayes. A good crowd witnessed the game. The Maryville team made the trip to Fillmore in cars and returned last night. Next Sunday the locals will play with Burlington Junction at Burlington Junction.

In the Wilcox-Clearmont game the former won by a score of 4 to 1. The score would have stood with a goose-egg on the Clearmont side had it not been for Brownfield who knocked a home run in the first of the ninth. It was a pretty clout and was easily good for a circuit of the bases. The feature of the game, however, was the fielding of Puri Shell, the Wilcox right fielder. He stopped two line drives on his knee and played tip top ball.

Another example of great fielding occured in the seventh when Egley, playing with Wilcox, knocked a long high fly to deep center. Smith of Clearmont ran back under the ball and with a high leap into the air he "speared the pill" and threw Egley out at home. This throw robbed Egley of a homer but it was a nice stop by Smith.

Jones of Wilcox also hit a long three bagger but he was thrown out when he tried to stretch it into a homer.

The batteries were: Wilcox—Phipps and Tobin; Clearmont—Nucholls and Carmichael. The umpires were Booth of Wilcox and Watson of Clearmont.

Wilcox will entertain Hopkins at Wilcox next Sunday for as many innings as is necessary. The largest crowd of the season witnessed the game yesterday.

Hopkins won from Ravenwood at Hopkins yesterday by a score of 2 to 0. It was a good game and the feature was throw from center to the plate by Rickard of Hopkins. This throw kept Ravenwood from scoring. The batteries were Hopkins—Dixon and Turner; Ravenwood—Ross and Bishop.

The next Hopkins game will be with Wilcox at Wilcox next Sunday. A good crowd witnessed yesterday's game.

Mound City won from Graham yesterday at Mound City by a score of 8 to 6. A large crowd witnessed the game. A return game will be played at Graham next Sunday.

Oregon swamped Bigelow at Big Lake yesterday by a score of 6 to 1. There was a good crowd.

MISS ARNETT WILL SAIL FOR EUROPE WEDNESDAY

Former Teacher of College to Spend Three Months in Europe—To Teach at Salem, Mass.

Miss Mabel Arnett, formerly of the State Teachers College faculty, leaving Maryville last September, will sail Wednesday noon for a three months' trip in Europe. She will visit England, Scotland, Ireland, Germany, France, Belgium and Italy. She will return to this country in September and will have charge of the English department of the State Normal School at Salem, Mass., the coming year.

Miss Arnett has been attending Columbia University at New York the past year and received her master's degree there last week.

LEARNING STOMACH-TO-HEART METHOD

S. T. C. GIRLS MAY USE THIS ROUTE TO FIND MATE

BUTTERFLY TYPE WRONG

Miss Hettie Anthony Says Training Will Make Good Home Keepers

Girls at the State Teachers College have ample opportunity to learn the stomach-to-heart method for the securing of their life mates. The department of home economics is running at full speed and in high gear.

Ten courses are offered by the Department and more than 100 girls are enrolled. There are four teachers in the Department and all of the equipment and paraphenalia necessary for the courses is on hand.

Three courses are offered in the foods department. They are Preparation of Foods, Selection and Marketing of Foods and Nutrition. These classes are taught by Miss Mary Rogers, a graduate of the University of Missouri, and by Miss Katherine Carpenter.

Four courses are offered in the clothing problem. They are taught by Miss Hettie Anthony, head of the department, Miss Rogers and by Miss Anna Bainum. These classes are The Making of Undergarments, The Selection and Making of Simple Garments Teaching Training and the Selecting and Testing of Economic Materials.

Miss Anthony is also giving courses in home nursing and sociology of the family. A course in household management is given by Miss Rogers.

The department is meeing all of the requirements for the vocational work under the Smith-Hughes Act.

Miss Anthony, said today: "We are offering more courses and have more students than ever before. There is a great need for the preparation of girls for better home-makers. Since the men are finding the economic pressure so hard on their pocket bpoks the need to relieve this pressure comes fundamentally from the home and the homemaker. The boys of this generation should be trained to select as their wives, girls who have had home economics rather than the social butterflies.

"Home economics is opening as many opportunities to the modern woman. It is not only preparing her to make a home for herself and to teach but it is opening many positions in industry and vocations, such as dietetians in hospitals, deans of women in colleges, industrial advisors in department stores, food experts and clothing experts in federal positions and large manufacturing concerns, and, within the last two years our larger banks are creating a position for home economics trained women, known as 'The woman advisor in keeping home budgets.'

"Home economics is a time saver a money saver, and a health saver It saves steps, time and energy.

"Lately there have been more calls for home economics teachers than the College has been able to fill Such positions pay excellent salaries and there are always openings."

"The class in nutrition is making a test of foods and their effects on the body. This class is really a course in preventive medicine.

"So many people are good cooks, but they do not know how to select foods and do not understand their reaction on the body. If people ate properly much illness would be prevented, and a saving in money would be one of the results."

Miss Anthony said that within the last few days she has placed several of her students in advantageous positions.

HAD 4 CHILDREN'S DAY PROGRAMS

ONE YESTERDAY MORNING AND THREE IN THE EVENING.

PRESBYTERIANS' UNIQUE

Children representing Characters Came Out of Huge Book—Many at Christian Church.

Yesterday was a day of children's programs in Maryville. The day opened with one in the morning at the First Baptist Church. Three came in the evening, one at the Presbyterian church, one at the First Methodist Episcopal church and one at the Christian church.

Perhaps the most unique of the programs was the one at the Presbyterian church. The name was "Out of the Bible." The scheme was carried out in having the different characters, who were folks of the Bible, come out of a huge representation of the Holy Book. The characters came out one by one, and made speeches appropriate to the Bible stories regarding them. It ended up in a tableau in which Joseph and Mary, represented by Byron Murry and Miriam Gray, were looking into the cradle at the little Christ child. Ruth Jensen and Mary Jane Bellows as Religious Education and Imagination had the leading parts. Edward Dietz as Joseph made a special hit with the audience with his clear distinct speaking and Helen Davis as Miriam, sang a solo behind the curtain which was especially pleasing. The characters of the Bible were supported by a chorus of children. In all about seventy children took part.

A large crowd attended the program at the Christian church. The pageant and the part of the little folks were especially good and are said to deserve special comment. A large number of children were in the program, which was in charge of Mrs. Vada Halley, Mrs. J. D. Richey, Mrs. Homer Black and Mrs. Ellis Cook.

"The Road to the Golden Age" was given at the First Methodist church. A large number of children took part in the exercises.

W. S. DUNLAP DIED HERE SUNDAY AFTER OPERATION

Resident of Guilford Community for About 60 Years Lived Only Few Hours After Operation

W. S. Dunlap, a resident of the Guilford community for about sixty years, died at the St. Francis hospital in this city at 2:30 o'clock Sunday morning after having an operation performed at 6 o'clock Saturday evening. Mr. Dunlap had been in ill health for about three years.

Funeral services will be held at the South Methodist Church in Guilford at 2:30 o'clock Tuesday afternoon, conducted by the Rev. Swearingen. Burial will be at the Graves cemetery.

Mr. Dunlap came to Maryville about three weeks ago to visit Mr. and Mrs. James W. Blagg. He took sick last week and an operation was necessary, resulting in his death.

Mr. Dunlap was 83 years old and was born in Clinton County, Mo., on December 23, 1838. He came to this country at an early age and resided in the Guilford community about sixty years. Mrs. Dunlap's death occurred about fourteen years ago. Surviving are four children: W. L. Dunlap of Hollister, Calif.; Mrs. C. A. Ginn of Peoria, Ill.; Mrs. Hardin Walker and Mrs. F. H. Byergo of St. Joseph. Two sisters survive: Mrs. Carrie Wardrup of Gibson, Ia.; and Mrs. Jennie Pully of Clarksdale, Mo.

999 ENROLLED AT THE STATE TEACHERS COLLEGE

And the Other One Is Said to be on His Way Here to Begin Work.

At 3 o'clock this afternoon the enrollment at the State Teachers College had reached 999. Only one more needed to enter the the college for it to be able to count its record enrollment of four figures. And that one is said to be on the road. The enrollment as it now stands is 296 above the high mark before this year, which was 703, reached in 1916.

THINKS CONVENTION WILL NOT ADJOURN NOW

Editor Hull Who Is Home From Jefferson City Says Many Delegates Favor Finishing Work Soon.

Editor Fred Hull returned to Maryville Sunday morning from Jefferson City, where he is a delegate from this senatorial district to the constitutional convention. Mr. Hull will spend this week here, having been given a leave of absence from the convention.

Mr. Hull thinks the convention will not adjourn this summer. A few members are wanting the convention to adjourn on July 1 until September 1. Others are wanting the convention to take an adjournment of several months. Mr. Hull states a majority of the delegates are anxious to remain in session until the proposed constitution is written. He thinks this can be done by the middle of August.

The proposed constitution when ready will be submitted to the people of the state at a special election.

CLEMENT NIEMANN DIED THIS AFTERNOON AT 3:50

Father of Father Niemann of St. Patrick's Was One of the Oldest Citizens.

Clement Niemann, father of the Rev. Father Henry F. Niemann of St. Patrick's Church, died this afternoon about 3:30 o'clock at the home of Father Niemann after an illness of four weeks. The cause of his death was old age, Mr. Niemann being 95 years old.

Mr. Niemann was born in the province of Oldenburg, Germany, came to this country when a young man and located at Quincy, Ill. Mrs. Niemann died forty-two years ago. He located in St. Joseph in 1866 and was manager and superintendent of the Hax Furniture company of that city for a number of years.

Mr. Niemann came to Maryville twenty-six years ago with his son, Father Niemann.

No arrangements for the funeral services have been made.

Mr. and Mrs. Charles McEntyre of Hopkins are spending the day at the home of Mr. and Mrs. Ed Otis today.

On the following day, Mr. Long will visit at Barnard, Guilford and Conception. He will leave Conception Junction on the Wabash for Albany, where he will speak in the afternoon of that day.

Efforts are being made to have a big meeting here for Mr. Long. Delegations from every town in the county as well as many in adjoining counties are expected to attend the meeting.

Mr. Long visited Nodaway county in his campaign for senator in 1920. He carried this county at the primary election that year. His supporters think he will carry the county this time by a very substantial majority.

MISS NELLE RUTLEDGE TO EDUCATION DEPARTMENT

Began Work as Instructor at the State Teachers College this Morning

Miss Nelle Rutledge of Mt. Vernon, Mo., arrived in Maryville today on the noon train and took up her duties as an instructor in the education department of the State Teachers College this afternoon.

Miss Rutledge is a graduate of the University of Missouri, being graduated from that institution with the degrees of Bachelor of Science and Master of Arts. For the past year she has been a teacher in the high school at Joplin, where she taught teacher training.

Miss Rutledge has been employed for the summer term only. The largeness of the Department of Education made it necessary to have another instructor for this summer.

SIX CORPORALS FOR DE MOLAY DRILL PATROL

To Assist Master—Meeting Tonight—Hike About Town Friday Evening.

Six corporals have been appointed for the DeMolay drill patrol. Each of these men will have charge of a squad of four men and they will assist the drill master, Harry D. Snyder, in the drills. The men who were appointed to these places are Harold O'Banion, Martin Penisten, Morris Chick, Jack Jones, Ray Hull and Wilson McMurry.

A meeting of the patrol and regular drill will be held tonight. Plans for the contest of drill patrols of the Order of DeMolay at the State Conclave in St. Louis will also be discussed.

There will be a uniform drill of the patrol Friday night. This drill will be in the form of a hike and the patrol will march over many of the streets of Maryville.

PROF. H. A. MILLER MADE ADDRESS AT PLATTSBURG

Prof. Harry A. Miller of the State Teachers College addressed at 2 o'clock Saturday afternoon at Plattsburg the rural graduating class of Clinton county. A large crowd attended. In courtesy to Brekenridge Long, Democratic candidate for the United States senate, who was to speaking later in the afternoon, Professor Miller closed his address early.

Mr. and Mrs. Will Edwards and family and Mrs. Bessie Woodard and daughter, Maxine spent Saturday and Sunday at St. Joseph.

MANY KILLED IN NEW YORK STORM

ROSE WITHOUT WARNING AT 5:30 O'CLOCK THIS AFTERNOON.

CAUGHT AT THE RESORT

Damage Runs Into the Millions—Loss of Life and Property at Other Places.

New York, June 12—Forty-five persons are reported to be dead as a result of a storm here yesterday. A violent storm, accompanied by shifting winds that reached a velocity of eighty-eight miles an hour, took many lives, injured more than a hundred and caused fortunes in property losses in the metropolitan section.

Boston, June 12—One was killed, and several injured, and property damaged almost a million dollars due to the storm yesterday.

Washington, June 12—The yacht Mayflower, with President and Mrs. Harding, aboard docked early after a weathering gale in Chesapeake Bay last night.

New York, June 12—The city is taking toll of the worst storm recorded. The known dead, included those drowning, those killed in the collapse of a Ferris wheel and those killed by other storm accidents. A gale rose without warning at 5:30 o'clock yesterday afternoon. The day was very hot and beaches, parks and resorts were crowded with hundreds of people, many of whom were canoeing. The property damage is estimated in the millions.

Newark, Ohio, June 12—Three are dead, thirteen seriously injured and many more believed to be dead as the result of a tornado late yesterday.

EMPLOYERS INVITED TO DISCUSS CONTROVERSIES

Executive Council's Report Attacks Supreme Court's Decision and Labor Board's Wage Cut

Cincinnati, Ohio, June 12—Organized labor employees today sent an invitation to employers to meet and determine an agreement covering all controversies on both sides. An invitation came from Gompers. "We ask employers to meet not in any jug-handled movement which they dominate but in an honest way to ascertain and determine for some reasonable period an agreement covering controversial matters that affect both sides of industry," he said, and warned that as long as employers prosecute open shop insistance, there is no genuine confidence possible between employers and employees.

"Open shop, even when chocked with hypocritical American plan is an advance to commit devilish acts and there can be no genuine conference while it persists." The executive council's report attacked the Supreme Court's decision urging an appeal to a higher court of public opinion. The railroad labor board's wage cut was attacked as unjust and declared unemployment would be eliminated soon. It denounced Congress as inefficient, unconstructive and favoring moneyed class.

Cincinnati, June 12—Facing the most difficult problems in its existance the American federation of labor opened its convention here today. Leaders were determined to combat further inroads on organization labor.

REPORTS REGARDING LINEN'S HEALTH EXAGGERATED

Moscow, June 12—Reports regarding Lenine's health were exaggerated, interviewers were informed today by a source close to Lenine. It was denied that he was compelled to resign on account of ill health.

THE AMERICAN FLAG.

Much has been said during recent years about paying due honors to the American flag. Formerly this idea was confined largely to military men and war veterans. But nowadays the man who does not rise when the "Star Sapgled Banner" is played is likely to be forcibly reminded of his negligence and perhaps assisted to stand. The man who fails to take off his hat as the flag passes by, may get the same knocked of by some exuberant young patriot.

Flag day, also, observed June 14, is an anniversary noted in many schools, and this occasion has furnished a chance for teachers to talk to children about what the national colors stand for.

Any loyal American ought to find our stars and stripes a sign having deep meanings. Symbols have always had a tremendous power over human hearts. The martyrs looked to the cross of Christ and from the courage and faith derived from that sight have had the strength to brave torture and death.

The flag of one's country stirs emotions not wholly unrelated to that sacred emblem. Its red suggests the blood of patriotic martyrs, who like the Christian saints gave their lives for a noble ideal. Its white suggests the purity and honor that were the ideals entertained by the fathers who founded this country. Its blue suggests the favor of heaven, which has guided and preserved this fair land.

Thoughts like these then should come into the mind when the flag of the country passes by. Our people do not use it to decorate their home as they should. When July Fourth comes it should be unfurled and thrown to the breeze from every home. If your copy of Old Glory is dull and tarnished, get a new one, and clothe your sentiment in a clean and shining form.

Buying a pocket book on credit is another sign of a real optimist.

The surplus of ex-wives and former husbands seems to be growing.

About the only constructive work a good many congressmen ever do is the regular biennial construction of their political fences.

It would suit some fellows better if a law could be passed to prevent a locomotive from claiming the right of way at a crossing when an automobile is coming.

Miss Mathilda McCormick has been notified that she can not be received into the higher society of Sweden if she marries Max Oser who is a perfectly respectable gentleman, but is not eligible, because of his business, to higher social circles. Miss McCormick should have him moved over to the United States any way if she wants him. The granddaughter of John D. Rockefeller can get into all the society she wants in this country, and besides who wants to live in Sweden?

"Civilization is based on emotion, not brain," says an exchange. There is too much truth in this assertion that might seem, at first glance, to be a wild statement. A couple of silk garments displayed in the Valentino trial at Los Angeles a day or two ago excited more interest than the tariff, bonus question and states rights all combined. There is too much attention to the frivolous and spectacular and too little to the questions of serious moment. Everybody remembers the details of the sensational murder trials and the big divorce cases and the Fatty Arbuckle fiasco but Senator Jim Reed and Breckenridge Long can talk themselves hoarse about the league of nations and the price fixing laws of two years ago and not one in fifty can tell whether either one is stating the facts correctly. We are living in a fast age when men crowd their brains with stuff, very little of which is digested and most of which is without mental nourishment or stimulus.

If you are the kind of
A fellow who is always
Down in the mouth you
Will never get up in the world.

Not only are horses scarce on Maryville streets these days but horse sense as well.

The man who has a jealous wife should hire an ugly stenographer.

You will often find that the slowest men can be the fastest friends.

A lot of people's idea of getting the best out of life is getting the best of the other fellow.

There is one consolation these days of June weddings and commencements. It is a long way until Christmas when we have to buy presents again.

Isn't it amusing to see how serious some people take themselves?

By the way, we have not seen a joke about the galoshes for three months.

Perhaps the reason a little kindness has to go so far is because the supply in this old world is limited.

Uncle Abner, the town philosopher, says defeat is only fatal to the man who thinks it is so.

Laying all joshing aside, we venture to say that there are not so many mortgages on homes as there are on automobiles.

The dress problem and the flapper problem exists chiefly in the minds of those who want to reform their fellow men and women.

The maid has it all over the average husband. The wife lets her have her nights out.

At last reports Maryville gossips still have the lead over the automobile drivers in running down people.

Louise, the stenographer, says the man who kisses a girl but once evidently believes that the first impressions are lasting.

One of our lawyer friends discharged his stenographer the other day. He said she could not spell and was always asking him how to spell certain words. "I wouldn't have minded it so much if I could have spelled them myself," he said.

Vagrant Musings

We learn how to make other kind of mistakes from experience.

We should always have good reasons for breaking silence.

Some people may be absent minded but they never forget a date to dinner.

There is room at the poor house for the fellow who is waiting for success to overtake him.

Our idea of an optimist is the man who is keeping up his dues in the brewery workers' union.

The Road to Yesterday

Who of us can't remember the days when a man on horseback rode down the street ahead of the circus parade calling to the people to watch their horses as the elephants were coming. Also when the parades were a mile long and the top balloon man was in evidence all along the line of march through the business streets.

CHAIRMAN HULL SAYS TO KEEP HANDS OFF

Washington, June 12.—In view of publications in the Missouri press and reports received here concerning the attitude of the Democratic National Committee toward the Democratic primary contest in Missouri, Cordell Hull, chairman of Democratic National Committee today issued the following statement to the newspaper press of Missouri:

"Some months ago plans for organization, educational and club work in conjunction or acquiescense with state organizations, and applicable alike to all states were, after full conference, prepared by Democratic National headquarters. This work has thus far been prosecuted in its various lines as in the past in a number of states, without any friction but in harmony with state party officials and candidates for nomination. Mrs. Emily Newell Blair and associates have had charge of the women's work.

"Since assuming charge here it has been the fixed policy of Democratic National headquarters that no official connected therewith and no agent thereof should by word or act interfere, directly or indirectly, with any contest for a Democratic party nomination anywhere. I have been and am most rigidly adhering to this policy. I feel no disposition to do otherwise, because the function and duty of the Democratic National headquarters, is to aid in the election of party nominees, and to in no wise take part in contests for nomination.

"Fortunately, no complaint of any breach of these sound rules and policies by any one acting as an agent for Democratic National headquarters has come to me, except from Missouri, during the past few days, and this complaint is based more on breaches that are thought to be threatened than on any actually committed.

"In view of the spirited primary contests in Missouri, I am particularly anxious that the fullest precaution be taken by every Democrat participating in any phase of national party organization work in that state to avoid even the appearance of the slightest interference in any primary election contest, and on the contrary to confine their every utterance and action to preparation for the November election alone. In my efforts to carry out this policy I have even repeatedly emphasized this rule and sent directions accordingly to every person who should receive them in Missouri from Democratic National headquarters.

GOLF NOTES

The drive for 100 new members for the Country Club started today. If the club is successful in getting that many new members, arrangements will then be made for the purchase of the grounds. Several men were busy today soliciting new members. No report was made as to how successful they were.

A great deal of interest is being taken in the flag day tournament to be held Wednesday, flag day. The tournament is to decide where you will be after taking your thirty-fifth stroke. At that point you are to put your flag with your name attacked to it. A flag pole is to be put up on the grounds so as the flag can be put up Wednesday. J. L. Kraft has charge of the arrangements for putting up the flag pole. F. C. Miller is in charge of the flag day tournament.

F. C. Miller made another 35 yesterday. This is the lowest score yet made at the country club. His other scores yesterday were 37, 38 and 42. S. G. Gillam made the course in a 37. He is fast developing into one of the best players of the club. George L. Willfley is playing a good game. There are several others, being Bud Hamilton, Clarence Vogt, Dr. Jesse Miller, Jr., Ed Keck, Paul Sisson and Harvey Haines who are playing good golf.

Frank Reuillard, one of the captains for the membership drive, says he has thirty-five new members. Several believe Mr. Reuillard is not very accurate in counting since taking up golf.

Ike Thomas Pryor of Fort Stockton, Tex., visited the country club with his brother-in-law, George Robb Ellison. Mr. Pryor was very high in his praises of the grounds. He said it was a beauty spot. Many other visitors have also commented that the grounds are as pretty as any course they have seen.

Several are playing golf to gain weight while others are playing to reduce. Included in these classes are George B. Baker, Will J. Montgomery and Clarence Vogt. There may be others.

Several during the past week have joined the ranks of that species of the golf race known as "bugs." They have been "bitten" and infected with the golf germ for which there is no cure.

Replace the 'turf.—Mr. Golfer, do you always replace the turf, the beautiful turf that the forefathers have had such a hard time producing.

Harry Wilson of Burlington Junction was a visitor at the club yesterday. Mr. Wilson became very enthusiastic about the game.

JOSEPH McKEE VISITING HIS BROTHER, G. E. McKEE

Joseph McKee of Iron Mill, Mont., is visiting at the home of his brother, G. E. McKee in vicinity of Orrsburg. Mr. McKee formerly lived in Nodaway County, moving to Montana about eight years ago. Mrs. McKee died last July and Mr. McKee's two children, Genevieve and David, have been staying since last fall at the home of their uncle, G. E. McKee, attending the Excelsior school. They will return to the West with their father. Mr. McKee is a Republican candidate for sheriff of his county in Montana.

Bedford Visitors Here.

Mr. and Mrs. Martin H. Borrusch and son, Paul, of Bedford, Iowa, were visitors in Maryville today. They were former residents of Maryville.

ELECTRIC THEATRE

TONIGHT—Carmel Myers and Walace McDonald in **"BREAKING THROUGH**, Episodes 4 and 5. Also Jimmy Aubrey in a two reel comedy of laughter, **"THE BACKYARD."** Don't miss it, you'll like it. Night 7:30 and 9:00—10c and 22c.

Tuesday and Wednesday, June 13 and 14—Double feature program, Mary Miles Minter in **"THE HEART SPECIALIST."** Romance—in a Turkish harem—"behind the scenes" in a roaring New York newspaper office—out in the green open country. Comedy and thrill at the adventures of a love expert in quest of love! Funnier than the funniest joke is the tale of woe pictured by Buster Keaton in that riot of hilarious mishaps where the sad-faced comedian's attempts to end his many troubles always bring new ones and make **"HARD LUCK"** too good to miss.

If you remember, about two weeks ago we ran Buster Keaton in a two reel comedy that was extra good, well this one is as good if not better with new stunts. Matinee each day at 3:00—10c and 22c. Night 7:30 and 9:00—10c and 33c.

STATE PROSPECTS NOW INDICATE 43,733,000 BUSHELS.

CORN AVERAGE INCREASES

Red Clover Prospects are Best and Oats Poorest in Several Years—Fruit Promising.

Jefferson City, June 12. — Missouri wheat prospects now indicate 43,733,000 bushels, according to the June returns received by E. A. Logan and Jewell Mayes of the Federal-State Crop Reporting Service, with oats yielding 29,363,000 bushels, hay 4,261,000 tons, and prospects pointing to increase of 365,000 acres over the 6,096,000 acres of corn last year.

Nodaway County farmers report the local condition of wheat at 88 per cent of normal, and corn at 85 per cent. The acreage of oats in this County was 33,740 in 1921 and they report only 29, 610 acres seeded this year, with conditions of 86 per cent. Nodaway County reports show apples to be 81 per cent, hays 72 per cent, pasture 82 per cent, and peaches 97 per cent.

Missouri wheat now 83 per cent indicates an average yield of 14.85 bushels per acre, totaling 43,733,000 bushels, compared to 82% last year, the ten-year average being 77 per cent. The final yield in 1921 was 34,390,000 bushels. Wheat did not develop during May as in a usual year. It was too wet during the preceding months, and the crop on flat lands that became yellow has never recovered. The result is short heads. Well drained bottom lands and hills are quite promising, and generally the best wheat is in the northern third of the state. Lodging has occurred at scattered points, and much rust is reported with chinch bugs in many counties and worst on the east side north of the Missouri River. The crop is beginning to ripen in southern sections where cutting begins by the 15th and harvesting will be general in the next two weeks.

Corn has been planted upon an increased acreage, approximately 365,000 acres over last year, which would bring the total corn acreage up to 6,462,000 acres against 6,096,000 last year. The first official acreage estimate will be made July 1st. Planting was late, due to rains, but generally stands are good. Work has been delayed most in Central Missouri, and planting continues in the wet and overflow areas. Cultivation is quite general of the first plantings throughout the state, with some corn plowed the third time. Many fields are rough and hard to work. Cutworms were bad during the cool spells. Considerable fear is expressed for corn from chinch bugs in Audrain, Callaway, Jefferson, Johnson, Knox, Lewis, Pettis, Ralls, St. Louis, Shelby and Warren, where this is the third consecutive year of this insect menace.

Missouri oat acreage for 1922 is only 60 per cent of last year, or 1,289,000 against 2,148,000, and with condition at 67 per cent, indicating 22.78 bushels per acre or 29,363,000 bushels compared to 42,960,000 last year. Acreage of oats is the smallest and the prospect is the poorest for several years, as condition in 1921 was 77 per cent and 84 per cent is the ten-year average. The oats crop was sown under adverse conditions, and with little gain in May is still small and weedy. Present indications are that 40 per cent of the reduction in oats acreage has been planted to corn. While there will be some idle land, the balance of the acreage will be sown largely to millet, soybeans, cowpeas, and sorghum. Sudan grass will be seeded more generally than usual. Soybeans are being tried for the first time by many farmers.

Hay is 89 per cent normal, indicating 1.25 tons per acre or 4,261,000 tons. The condition last year was 75 per cent and the ten-year average 81 per cent. Many meadows are short and weedy. Red clover is the best for several years, and is ready to harvest, but much of the crop in many communities is badly mildewed. The acreage is 208,000 compared to 186,000 last year, with condition of 93 per cent compared to 75 per cent in 1921 and 82 per cent ten-year average. Alfalfa is 91 per cent first cutting being harvested on 178,000 acres compared to 173,000 last year, with good prospects in most sections.

Pastures are excellent in all sections excepting the extreme northern and eastern borders, and throughout the central sections best ever. White clover is fine. A good crop of bluegrass has been produced and much interest developed in stripping seed. Condition is 96 per cent compared to 90 in 1921 with 87 for the ten-year average.

Fruit prospects are very promising. Apples are 80 per cent, with complaints of heavy drop for fall apples. Peaches 92 per cent and developing well. Pears 70 per cent, and poorest fruit prospects. Cherries are plentiful and grapes carry heavy blossoms. Gooseberries have been plentiful, and the strawberry crop large. Tame and wild blackberries and raspberries promise another big crop. Local hailstorms did some damage during May.

Gardens have improved rapidly. Potato stands are irregular, but the commercial and farm plantings are more than last year. Watermelons are good stands in shipping districts. Beans 89 per cent, cabbage 86 per cent, onions 91 per cent. Watermelons and cantalopes 84 per cent.

General farm conditions are more promising than last June. Live stock are healthy, and the upward slant of prices for farm products continues. The spring has been too wet and cool, and crop growth is somewhat backward. The 1922 crops are planted, and the outcome all depends upon the season during the next twelve weeks. The Missouri farmer attitude is growing more confident, and fewer complaints are heard.

MANY TYPICAL NODAWAY CO. SCENES BEING MADE

George A. Pickens is busy making still pictures of typical scenes in Nodaway County which will be enlarged and used as art titles for the Nodaway County agriculture films. Mr. Pickens says that he is surprised at the many beautiful scenes. It is just the time of year when all of the crops are beginning to make a good appearance and the variety which this county offers makes the task of getting pictures for art titles an enjoyable one.

Bail for Trusty at $2,000

Verne Trusty of Burlington Junction was arraigned before United States Commissioner Duncan in St. Joseph Friday, charged with transporting a stolen motor car from Loveland, Colo., to Maryville, Mo. MANY TO CONCEPTION TOMORROW FOR SERVICES

Solemn Blessing and Inthronization of Coadjutor Abbott Philip Will Take Place Then.

A number from Maryville are intending to go to Conception tomorrow to attend the solemn blessing and inthronization of Coadjutor Abbott Philip Ruggle, O. S. B., and to attend the Catholic Day exercises there tomorrow afternoon. The ceremonies at the Conception Abbey will commence at 9 o'clock in the morning.

His Grace, S. G. Mesmer, Archbishop of Milwaukee, officiating, assisted by Right Rev. Athanasius Schmitt, O. S. B., Abbot of St. Meinrad Abbey, St. Meinrad, Ind., and Right Rev. Ignatius Conrad, O. S. B., Abbot of New Subiaco Abbey, Subiaco, Ark., other Abbots and Bishops. The sermon will be preached by Monsignor James P. Brady of St. Joseph.

Right Rev. Philip Ruggle, O. S. B., who is to be Coadjutor Abbot to Right Rev. Frowin Conrad, O. S. B., was born April 10, 1865, at Gossau, Canton St. Gall, Switzerland. His early education was obtained in his native city and at the famous monastic school, Maria Einsiedeln. In the year 1883, when Abbot Frowin opened Conception College, Father Philip was the first student to register. He is therefore the first alumnus of Conception College, which, during the lifetime of its founder, has given to the Church one hundred priests. Before completing his course at Conception, Father Philip pursued his studies for one year at St. Benedict's College, Atchison, Kansas.

Entering the novitiate at the Abbey, he made his simple vows Nov. 13, 1887. He was ordained priest Aug. 15, 1891, by the Right Rev. Otto Zardette, D. D., of St. Cloud, Minn., who was later transferred to Bukarest, Roumania, and raised to the Archiespiscopal dignity. Subsequently he was engaged as teacher at the college, then pastor of St. Benedict's Church at Clyde, and eventually as Procurator of the Abbey. As pastor of Sacred Heart Church at Verona, Mo., he erected a beautiful, typically rural church, one of the monuments of catholicity in Southwest Missouri. During his pastorate of St. Joseph's parish, Pilot Grove, Mo., Father Philip was appointed to St. Michael's Priority, Cottonwood, Idaho, and assumed to the office of Prior Sept. 8, 1915.

At noon dinner will be served at the parish hall. In the afternoon several addresses will be given and among them will be Miss Grace Shepherd of the State Teachers College and T. A. Cummins. Prosecuting Attorney Charles F. McCaffrey will be the chairman of the meeting. William Oakerson of Jefferson City, formerly county superintendent of this county, will be one of the speakers at the picnic.

THE REV. MR. CONDER SPENDING A WEEK'S VACATION HERE.

The Rev. J. E. Conder arrived in Maryville last evening for a week's visit with his family. The Rev. Mr. Conder is field secretary for the National Anti-Saloon League and for the past few weeks has been in Minnesota. He will leave Maryville next Monday for a trip to Montana, Washington and Oregon for the league. He is expected to return to Maryville about July 15 to spend a two months' vacation here.

WALKING TO 23RD ANNUAL ENCAMPMENT AT SEATTLE

Delegates From Yonkers, N. Y., to Go to San Francisco First and Then Up the Coast.

New York., N. Y.—Determined to attend the Twentieth Annual Encampment of the Veterans of Foreign Wars of the United States to be held in Seattle in August, James J. McCormack and Solly Summerfeldt, both members of Crusaders Post No. 353, Veterans of Foreign Wars, of Yonkers, N. Y., started for the encampment city on foot several days ago. They are fully equipped with a regulation shelter tent and a compact camping outfit and will spend most of their nights under canvas.

They have been elected as delegates to the Encampment by their Post. They plan to go to San Francisco first where they will attend the annual gathering of the Disabled American Veterans of the World War, and from there they will "stroll" up the coast to Seattle. They plan to arrive there in time to attend the opening session of the Encampment which will take place in the morning of August 14.

These same men walked from New York to Detroit last year to attend the 22nd Encampment. Summerfeldt was severely wounded in France and bears several shrapnel scars.

"Ye Ol' Swimmin' Hole," 102 River, A Popular Place.

"Ye ol' swimmin' hole." Every section of the country has one and every town little and big claims one as its own. It may be in the nature of what would ordinarily be termed a "duck pond," three feet deep with a mud bottom or it may be a deep pool with clean, clear water and a rock bottom. But whatever kind of a place it is will be popular with the boys and it will even tempt the grown-up folks.

Yesterday was the first real Sunday for swimming this year. Maryville's most popular place seems to be the hole just below the old concrete dam at the pumping station at the One Hundred and Two River. From morning until late in the afternoon the water was litterly filled with boys, some of them almost men, diving from the dam or swimming and playing about in the hole. At one time forty were counted from the state road bridge.

The swimmers were in bathing suits of various colors, those of them who had suits, and those who did not have suits were clad in overalls and shirts, with abbreviated legs and sleeves.

There is no bath house at the river and no shower bath to wash off the sand after the plunge. But the nearby willows serve the purpose of a dressing room and, well, the boys can dangle their feet in the water from the dam and make them clean before they put on their shoes and stockings. Anyway it is a swimmin' hole and affords the young folks hours of pleasure untold.
